Installation of the CartIt Gift Module

The following instructions should help you install the *CartIt for Unix Gift Module* for CartIt 5.x on your hosting account or server. Please refer to the CartIt Installation Guide for information on the basic CartIt installation procedures. The CartIt Installation Guide is available at: <http://www.im1.com/download/>

This guide presumes you have CartIt installed and functioning prior to proceeding further. A normal installation of the Gift Module should be accomplished in less than 30 minutes.

IMPORTANT!

Always make a backup copy of any files before modifying them! If you are not careful you may break your installation of CartIt. We will not be responsible for loss of business or any incidental or consequential damages resulting from the performance of the CartIt Gift module.

1. Download the CartIt gift module zip file. Unzip the file and change the first line of the cartitgift.cgi program to point to the correct location of PERL on your web server.
2. Upload the cartitgift.cgi in ASCII mode to the cgi-bin where cartit.cgi has been installed and use chmod to change the file permissions to 755.
3. Edit the cartitcf.cgi and set the Gift Module option to 1 (loaded).
\$GIFT_MOD_LOADED = 1;
4. Upload your custom images: Image 1, an image called "smallgift.gif" with a default size of 57x26 pixels. Edit the cartitimg.util file located in the cgi-bin to reflect the path to it and it's size.

```
'GIFT_DISPLAY' => '<IMG SRC="/demos/small_gift.gif" WIDTH="57" HEIGHT="26" ALT="Gift"
BORDER="0" ALIGN="ABSMIDDLE"> Gift Settings',
```

Image 2, an image called "gifts.gif" with a default size of 136x150 pixels. Edit the gifttop.html file located in the cartit data directory to reflect the path to it and it's size.

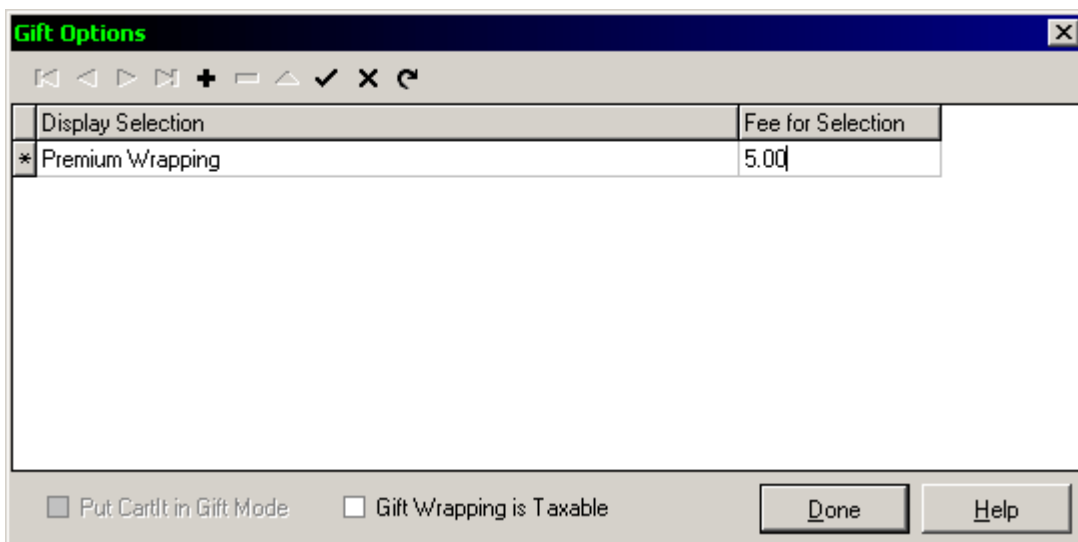

```
<IMG SRC="/gifts.gif" WIDTH="136" HEIGHT="150" ALT="gifts" BORDER="0">
```

CartIt Gift Module Installation

5. In CommerceBuddy do the following: Enter the Gift Module license number under **Help -> About CommerceBuddy**. Click **OK**.

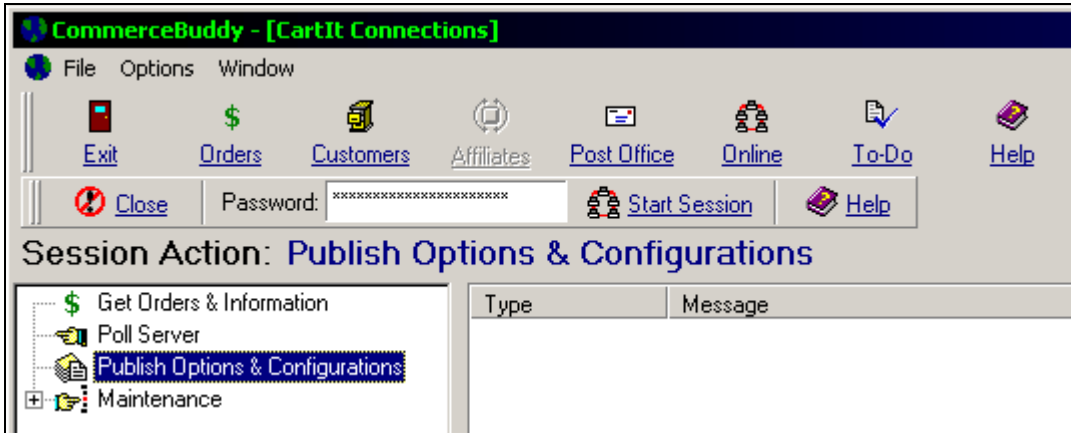

6. Check the **Put CartIt in Gift Mode** option under **Options -> Gift Wrapping**. If the option is still grayed out as shown below, you have not entered the license number correctly for the Gift Module.

CartIt Gift Module Installation

7. Enter any Gift Options you may have and the prices for the options. For Example: Premium Gift Wrapping or Extra Bows, etc. Click the + sign and then type in the **Display Selection** Text area. This text is presented to the shopper as they set up the recipient for the gift during the checkout process on your site. Click on the **Fee for Selection** field and enter the price for the Gift Option. If Gift Wrapping is taxable, check the box marked **Gift Wrapping is Taxable**

CommerceBuddy Publish Options & Configurations

8. Click **Online** and enter your Password in the **Password** box. **Choose Publish Options and Configurations** under **Session Action**. Click **Start Session** to update the site configuration.
9. Run some test orders and make sure everything is working OK. Check that the gift options are showing for an item placed in the cart and set up a test recipient.

Congratulations on installing the CartIt Gift Module!
